Subject: The Draft LNFH NPDES Permit is out for public comment starting today
Attachments: SAGE PARK 12-16-16 LETTER.pdf

Dear David and Breean,

This attached letter also went out to Ms. Park in hard copy today. Here's the link again to our website where you can find the documents:

<https://www.epa.gov/npdes-permits/proposed-permit-leavenworth-national-fish-hatchery-washington>

I emailed the draft permit and fact sheet to Breean just now, as I copied her on a message that I sent to the Hatchery. Please feel free to call me if you have any questions. (b)(6)

, I am starting a new position with the Agency. I am going to be the Manager of the NEPA Review and Sediment Management Unit in our Office of Environmental Review and Assessment. There will be another permit writer working on this permit after the public comment period closes, but I hope to be available as a consultant to help EPA with developing a final permit.

Jill
